

Business Benefits of Green Caffein

Café owners love the good coffee karma that flows once they're on board with Green Caffein. You know what else they love? The extra cash flow.

We've done the maths, so you don't have to -

Let's say every disposable cup (with lid) costs you around \$0.30 a pop. And a regular coffee drinker has at least 5 coffees per week, 48 weeks per year... That's 240 cups, which is \$72 per regular.

YES, WE KNOW THAT'S BEING CONSERVATIVE!

By encouraging your regulars to use a Green Caffein cup instead of a disposable one, **you could save your business thousands.** Check these figures. How much could you SAVE?

	 \$\$\$ SAVED	 CUPS SAVED	 WASTE SAVED
10 Regulars	\$720	2,400 cups	36kg
20 Regulars	\$1440	4,800 cups	72kg
30 Regulars	\$2,160	7,200 cups	108kg
